Subject: FW: Hopi Arsenic Mitigation Project

Robert,

Here is Dennis Rodriguez's contact information. He would like to talk to you about BIA/BIE participation in the HAMP. As we just discussed, please send a copy of the PER, as Matthew O'Grady, who had a copy is no longer with OFMC. Dennis mentioned that Rex Wall, OFMC's NEPA guy, will also be working with him on this project. Dennis confirmed that BIA/BIE is moving in the direction of connecting to the HAMP, along the lines Bill Bettenberg had described. I am forwarding the draft preliminary EA to Dennis.

John
